Preface

Chapter 1. Introduction

Downl

Why the Internet and Why Now?

Strategic Issues

What Do We Mean by "Internet Commerce"?

Business Issues in Internet Commerce

Technology Issues in Internet Commerce

Who Owns Internet Commerce in an Organization?

Structure of the Book

Part: One The Business of Internet Commerce

Chapter 2. The Commerce Value Chain

Downl

Introducing the Commerce Value Chain

Components of the Commerce Value Chain

Who Is the Customer?

Marketing on the Internet

Doing Business Internationally

The Legal Environment

Summary

Chapter 3. Internet Business Strategy

[Downl](#)

Commerce and Technology Revolutions

A Historical Analogy

The Internet Value Proposition

Four Strategies

New Competitive Threats

New Competitive Opportunities

Disintermediation and Reintermediation

Summary

Chapter 4. Business Models—Some Case Studies

[Downl](#)

Introduction to Business Segments

Consumer Retail

Business-to-Business Models

Information Commerce

Summary

Chapter 5. Conflicting Goals and Requirements

[Downl](#)

Goals of the Participants

The Role of Standards

Privacy Versus Merchandising

Summary

Chapter 6. Functional Architecture

[Downl](#)

What Is Architecture?

Core Architectural Ideas

Roles

Components

Examples of System Architecture

Summary

Chapter 7. Implementation Strategies[Downl](#)[Organizing for Internet Commerce](#)[Planning the Implementation](#)[Outsourcing](#)[Custom Development](#)[Packaged Applications](#)[Working with System Integrators](#)[The Roles of Internet Service Providers](#)[Project Management](#)[Staying Up-to-Date](#)[The Role of Standards](#)[24/7 Operation](#)[Security Design](#)[Multiorganization Operation](#)[Summary](#)**Part: Two The Technology of Internet Commerce****Chapter 8. The Internet and the World Wide Web**[Downl](#)[The Technology of the Internet](#)[Development of the Internet](#)[Design Principles of the Internet](#)[Core Network Protocols](#)[The World Wide Web](#)[Agents](#)[Intranets](#)[Extranets](#)[Consumer Devices and Network Computers](#)[The Future of the Internet: Protocol Evolution](#)[Summary](#)**Chapter 9. Building Blocks for Internet Commerce**[Downl](#)[Components in an Internet Commerce System](#)[Content Transport](#)[Media and Application Integration](#)[Server Components](#)[Programming Clients](#)

Sessions and Cookies

Object Technology

Application Servers

Commerce Client Technology

Delivering Digital Goods

Summary

Chapter 10. System Design

[Downl](#)

The Problem of Design

A Philosophy of Design

An Architectural Approach

Security

Design Principles Versus Technology Fads

Summary

Chapter 11. XML and Web Services

[Downl](#)

What Is XML?

Basic XML Standards and Technologies

XML for Data Exchange

XML for Communications—Web Services

XML for Applications

Summary

Chapter 12. Creating and Managing Content

[Downl](#)

What the Customers See

Basic Content

Tools for Creating Content

Managing Content

Multimedia Presentation

Personalization

Integration with Other Media

Summary

Chapter 13. Cryptography

[Downl](#)

Keeping Secrets

Types of Cryptography

How to Evaluate Cryptography

Operational Choices

[One-Time Pads](#)

[Secret-Key \(Symmetric\) Cryptography](#)

[Public-Key \(Asymmetric\) Cryptography](#)

[Modes](#)

[Protocols](#)

[Key Management](#)

[Certificates and Certificate Authorities](#)

[Summary](#)

Chapter 14. Security[Downl](#)

[Concerns About Security](#)

[Why We Worry About Security for Internet Commerce](#)

[Thinking About Security](#)

[Security Design](#)

[Analyzing Risk](#)

[Basic Computer Security](#)

[Basic Internet Security](#)

[Client Security Issues](#)

[Server Security Issues](#)

[Achieving Application Security](#)

[Authentication](#)

[Authentication on the Web](#)

[Web Sessions](#)

[Summary](#)

Chapter 15. Payment Systems[Downl](#)

[The Role of Payment](#)

[A Word About Money](#)

[Real-World Payment Systems](#)

[Smart Cards](#)

[Online Credit Card Payment](#)

[Electronic Cash](#)

[Micropayments](#)

[Peer-to-Peer Payment Systems](#)

[Payment in the Abstract](#)

[Summary](#)

Chapter 16. Shopping Carts and Order Management[Downl](#)[Overview](#)[Shopping Carts](#)[Managing Shopping Carts](#)[Purchase Order Information Flow](#)[Shopping Cart Presentation](#)[Abandoned Shopping Carts](#)[Summary](#)**Chapter 17. Transaction Processing**[Downl](#)[Transactions and Internet Commerce](#)[Overview of Transaction Processing](#)[Transaction Processing in Internet Commerce](#)[Client Software](#)[Implementing Transaction Processing Systems](#)[Keeping Business Records](#)[Audits](#)[Summary](#)**Chapter 18. Integration with Enterprise Applications**[Downl](#)[The Details Behind the Scenes](#)[Enterprise Systems Architecture](#)[Integration Pitfalls](#)[Middleware](#)[Enterprise Resource Planning Systems](#)[Taxes](#)[Logistics, Shipping, and Handling](#)[Inventory Management](#)[Example: SAP Integration](#)[Summary](#)**Chapter 19. Reliable and Scalable Systems**[Downl](#)[Overview](#)[Enterprise-Class Concepts](#)[Reliability](#)[Availability](#)[High-Availability Systems](#)

Building Highly Available Systems

Replication and Scaling

Backup and Disaster Recovery

Summary

Chapter 20. Mobile and Wireless Systems

[Downl](#)

Overview of Mobile and Wireless Technologies

A Range of Devices

Wireless LAN Technology

Security and the Wireless LAN

The Mobile User Experience

Outsourcing

Summary

Part: Three Systems for Internet Commerce

Chapter 21. Putting It All Together

[Downl](#)

Building Complete Systems

Federated Commerce System

System Functionality

System Architecture

Transaction Engine

System Functionality

Case Study: Business-to-Business System

Case Study: Business-to-Consumer System

Case Study: Information Commerce

Summary

Chapter 22. The Future of Internet Commerce

[Downl](#)

Trends

Discontinuities

Staying Up-to-Date

Strategic Imperatives

Resources and Further Reading

[Downl](#)

Chapter 1—Introduction

Chapter 2—The Commerce Value Chain

Chapter 3—Internet Business Strategy

Chapter 8—The Internet and the World Wide Web

[Chapter 9—Building Blocks for Internet Commerce](#)

[Chapter 10—System Design](#)

[Chapter 11—XML and Web Services](#)

[Chapter 12—Creating and Managing Content](#)

[Chapter 13—Cryptography](#)

[Chapter 14—Security](#)

[Chapter 15—Payment Systems](#)

[Chapter 17—Transaction Processing](#)

[Chapter 18—Integration with Enterprise Applications](#)

[Chapter 19—Reliable and Scalable Systems](#)

[Chapter 20—Mobile and Wireless Systems](#)

[Chapter 22—The Future of Internet Commerce](#)
